If the Software License used for the Cold DR License is licensed on a per Server, Client or NAS Device Tier basis the Cold DR License may be deployed on a Server, Client, or NAS Tier equal to, greater than or less than the authorized Server, Client, or NAS Tier for the license of the Licensed Software.

C. Your right to use the Cold DR Licenses shall automatically terminate if You fail to stay current on maintenance/support for the underlying Licensed Software. You are not provided separate maintenance/support for Cold DR Licenses, but may keep the installed Cold DR Licenses current to the latest version using the maintenance for the applicable Licensed Software.

D. Except as set forth in Section 17.3.E below, You may not use Cold DR Licenses simultaneously when You use the production license of the Licensed Software. The Cold DR Equipment on which Cold DR Licenses are deployed must be turned off or remain idle except for: (i) use in the case of an actual Disaster; or (ii) use in the case when a production server in a cluster of servers fails and production work is “failed-over” to a designated cold or idle server that is part of the cluster in conjunction with an actual Disaster or as part of a test.

E. You may use Cold DR Licenses for Failover Readiness Testing as reasonable and necessary for up to twelve (12) days per calendar year.

F. In the event of an actual Disaster, the Cold DR Policy may be used in production for a period of up to ninety (90) successive calendar days. At the conclusion of such period, if the production site has not been restored, You must request Veritas in writing for a transfer of the production license to the DR Site in accordance with Veritas’ then-current transfer policies. Fees may be applicable to any such transfers.

**17.4 NetBackup Master Server and Media Server.** If the Licensed Software You have licensed includes NetBackup software licensed on a per Master Server or per Media Server basis, such Master/Media Server license includes a per Client license for the applicable Server which may be used solely to provide backup support for NetBackup application files and Operating System files only. An additional Client license shall not be required to protect the local NetBackup application residing on the applicable Server. You may not use such included Client to provide backup support for any other application data or any content. In order to provide backup support for such other application data or content, You must obtain the applicable Client license for the applicable Server.

**17.5 NetBackup Enterprise Client.** If the Licensed Software You have licensed includes NetBackup Enterprise Client it may be possible to run and operate more than one (1) single instance of such Licensed Software on the Server or Client on

**17.8 NetBackup Library Based Tape Drive.** If the Licensed Software You have licensed includes NetBackup Library Based Tape Drive, You may use such Licensed Software only to protect and manage the number of robotic-controlled Tape Drives licensed for such Licensed Software. There is no charge for stand-alone, non-robotic tape drives directly attached to a NetBackup Master/Media Server or NetBackup Server.

In addition, You may use NetBackup Library Based Tape Drive to support physical tape drives only. If You wish to acquire backup support for virtual tape drives or any device that simulates the behavior and functionality of a physical tape drive, You must obtain the appropriate number of NetBackup Data Protection Optimization Option licenses.

**17.9 NetBackup Shared Storage Option.** If the Licensed Software You have licensed includes NetBackup Shared Storage Option, such Licensed Software may be used only to dynamically share the number of Tape Drives, standalone or robotically controlled, licensed for such Licensed Software among multiple NetBackup Enterprise Servers and NAS systems.
