Courses will help you learn, grow, and build your skills to sell more and earn more.

Certifications
Certifications will authenticate and validate your skills. Exams are proctored and three to six months of practical experience in the targeted field is recommended.

Multiple Delivery Methods

Self-paced Interactive eCourses

Start your data management learning journey wherever you are, whenever you have time. Complete multimedia learning modules to successfully set you up to get the most from your Cohesity investment.

Virtual Instructor-led Training

Engage with our experts and your peers in other industries during interactive learning sessions with hands-on labs and exercises that improve your data management strategies and optimize your use of Cohesity.

Instructor-led Training at Cohesity Offices

Select one of our onsite sessions and learn from our experts as you and your peers focus on the skills, labs and knowledge your organizations need to be successful with data management and Cohesity.

Dedicated Onsite Instructor-led Training

Maximize your enterprise's investment with all-in, private and hands-on data management education from our experts where you choose, delivered to your whole team.

Getting Started Technical Series Courses

The Cohesity Getting Started Technical Series offers on-demand eCourses that provide a comprehensive introduction to specific topics.

Course	Overview	Delivery	Duration	Details
DataProtect Delivered as a Service		eCourse	45 minutes	**Full Information**
	The Cohesity DataProtect course focuses on the initial setup process for Cohesity DataProtect as a Service. Students will learn how to register, protect and recover various workloads. Software simulations as well as video demonstrations are included to help visualize and practice the concepts. This course is free of charge for Cohesity customers.			
FortKnox Getting Started		eCourse	1 hour	**Full Information**
	The Cohesity FortKnox Getting Started course introduces Cohesity Cloud Services, initial configurations and usage of Cohesity FortKnox, and includes FortKnox hands-on simulations. This course is free of charge for Cohesity customers.			
DataHawk Getting Started		eCourse	1 hour	**COMING SOON**
	Learn how to use Cohesity DataHawk to improve your cyber resiliency. This course will teach learners how to set up and configure DataHawk to scan their data, identify sensitive data, and create an air-gapped, cloud based vault to protect their data from ransomware and other threats. This course will be free of charge for Cohesity customers.			

Cohesity Customer Courses

Course	Delivery	Duration	Intended Audience	Details
Platform Foundations	eCourse	2 hours	Pre-requisite to all Cohesity courses	**Full Information**

The Cohesity Platform Foundations is an eCourse that teaches Cohesity Platform fundamentals. It is a pre-requisite to all other Cohesity courses and focuses on both customer and partner-managed Cohesity environments. You will be introduced to the Cohesity Platform, it's components, and core services, as well as the file system, primary configuration options and management operations in the Cohesity user interface.
This course is free of charge for Cohesity customers.

Course	Delivery	Duration	Intended Audience	Details
Data Protection Operations	ILT or eCourse	1 day or 4 hours	• Backup Operators • Backup Administrators	**Full Information**

The Cohesity Data Protection Operations training course teaches common Cohesity DataProtect workflows and can be tailored to address desired customer use cases. It aims to equip students with the knowledge to describe the key features and use cases of Cohesity DataProtect, as well as registering, protecting, and restoring data from physical and virtual servers, as well as NAS. Additionally, students will gain an understanding of the fundamentals of protecting business applications such as Microsoft SQL, Oracle, Microsoft Exchange and Active Directory.

Course	Delivery	Duration	Intended Audience	Details
Platform Administration	ILT	1 day	• Cohesity Administrators • Backup Administrators • System Administrators	**Full Information**

The Cohesity Platform Administration course focuses on teaching Cohesity administrators topics regarding use cases, features, and operational workflows. It is structured to be flexible to match use-cases a customer may encounter and to equip students with the necessary skills to perform cluster maintenance activities such as software upgrades and patching, multi-cluster administration operations, understand and use Cohesity troubleshooting tools, create built-in and custom reports, and control access to their Cohesity cluster using roles and other security features. Additionally, students will learn how to deploy and manage Cohesity Marketplace apps.

Course	Delivery	Duration	Intended Audience	Details
Data Security Administration	ILT	1 day	• Security & Sales Engineer • Data Protection Engineers • Professional Services Engineers • Storage Administrators • Data Architects	Full Information

The Cohesity Data Security Administration course focuses on teaching students how to enhance cyber resiliency and stay one step ahead of the cyber-criminals by utilizing Cohesity's threat defense architecture to secure their Cohesity environment and their data. Adhering to industry security hardening guidelines and best practices, this course will prepare students to protect data from intrusion and failure with immutability, fault tolerance, and encryption. Students will learn how to protect, detect, and recover from ransomware attacks, prevent unauthorized access and comply with regulatory and compliance requirements.

Course	Delivery	Duration	Intended Audience	Details
SmartFiles Administration	ILT	2 day	• NAS Administrators • System Administrators • Storage Administrators • Cohesity Administrators	Full Information

The Cohesity SmartFiles Administration course focuses on teaching IT professionals how to best utilize the Cohesity SmartFiles service (Cohesity file and object services). This course covers an overview of the Cohesity platform interface and its features. You will also be introduced to Cohesity SmartFiles use cases and workflows. Additionally, the course covers NAS data migration and tiering, disaster recovery, long term retention, SmartFiles security, reporting and Cohesity marketplace apps.

Course	Delivery	Duration	Intended Audience	Details
Platform Troubleshooting	ILT	1 day	Cohesity experienced IT professionals responsible for operating and supporting the Cohesity Platform.	Full Information

The Cohesity Platform Troubleshooting course teaches Cohesity experienced operations and support IT staff how to triage, troubleshooting and resolve issues related to the Cohesity Data Cloud Platform. This course teaches students how to troubleshoot and maintain the Cohesity Data Cloud platform using native utilities and additional specialized tools.

Course	Delivery	Duration	Intended Audience	Details
Database Cohesity DataProtect for Oracle Database Administrators	ILT	1 day	• Database Administrators • Backup Administrators	**Full Information**

The Cohesity Data Protection for Oracle Database Administrators course focuses on teaching backup and database administrators how to best utilize the Cohesity DataProtect service to protect their Oracle databases.
This course covers an overview of the Cohesity platform interface and its features. Additionally, students will learn about various Oracle data protection workflows that the Cohesity DataProtect service supports.

Course	Delivery	Duration	Intended Audience	Details
Database Cohesity DataProtect for SQL Database Administrators	ILT	1 day	• Database Administrators • Backup Administrators	**Full Information**

The Cohesity Data Protection for Microsoft SQL Database Administrators course focuses on teaching backup and database administrators how to best utilize the Cohesity DataProtect solution to protect their SQL databases.
This course covers an overview of the Cohesity platform interface and its features. Additionally, students will learn about various Microsoft SQL data protection workflows that the Cohesity DataProtect service supports.
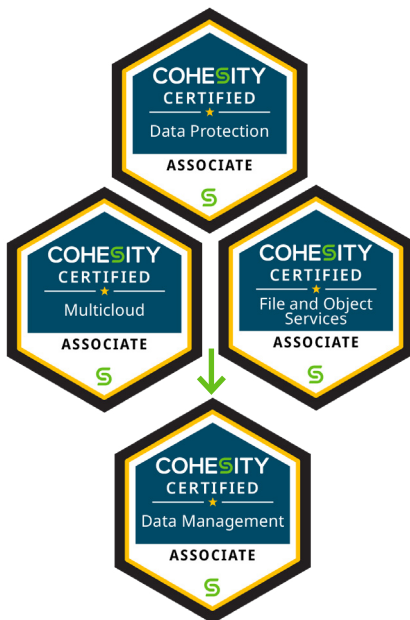

Certifications

Cohesity certifications enable technical professionals to demonstrate their current Cohesity data management skills and mastery of increasingly difficult concepts and tasks that arise in real-world environments.

- Six months of experience recommended with the respective certification field.
- Exams are proctored, cost $150 and last for 90 minutes.
- Certifications are valid for two years from the exam date.

Associate Level Certifications

Associate is a recommended foundational-level certification on the journey to being a Cohesity Certified Data Management Professional. Complete the below certifications and receive your Cohesity Data Management Associate Certification, proving you have the capability to help any organization advance their data goals.

Data Protection Associate Certification
Designed for individuals who want to demonstrate that they have mastered a modern scale-out, software defined solution to protect data from on-premises to the edge and the cloud.
- **Exam data sheet here**

1. Platform Foundations
2. Data Protection Operations
3. Professional Experience
4. Practice Test
5. Certification Exam

File and Object Services Associate Certification
Designed for individuals who want to build, test and assess their skills with software defined file and object services to better manage unstructured data, at scale, anywhere.
- **Exam data sheet here**

1. Platform Foundations
2. Data Protection Operations
3. Platform Administration
4. Professional Experience
5. Practice Test
6. Certification Exam

Multicloud Solutions Associate Certification
Multicloud certification assesses a deeper level of expertise and proves you understand how to simplify and automate data management use cases, such as archiving, tiering, and replicating across multicloud environments.
- **Exam data sheet here**

1. Platform Foundations
2. SmartFiles Administrator
3. Data Security Administration
4. Professional Experience
5. Practice Test
6. Certification Exam

Professional Level Certification

Unlock the next level of your career with professional level certifications. After completing the associate level certifications, advance to the tier 2 of professional data management with Cohesity's Data Security Professional Certification.

Data Security Professional Certification

Data Security Professional certification focuses on ensuring individuals are knowledgeable in how to successfully use and deploy Cohesity threat defense architecture solutions. Once completed, students will be able to demonstrate the ability to identify potential security risks and know how to mitigate them.

- Pre-requisite: Cohesity Certified Data Management Associate
- **Exam data sheet here**

1 Platform Foundations	2 Data Protection Operations	3 Data Security Administration	4 Professional Experience	5 Practice Test	6 Certification Exam

General & Certification FAQs

1. **How can I get a Cohesity account created?**
   Sign up here for a My Cohesity account.

2. **As a customer, how can I find courses?**
   Using your credentials login to your MyCohesity account, and navigate to Cohesity Academy for available learning opportunities.

3. **How are certification exams administered?**
   Certifications are delivered and proctored through a third-party organization.

4. **Is there training for the certification exam? How do I prepare?**
   We do not require coursework prior to taking an exam, but we do have courses to support you as you learn and we also recommend six (6) months on-the-job experience. To supplement your knowledge, Cohesity provides optional training courses, a study guide, and a practice exam to help you prepare for each certification exam.

5. **When will I get my exam results?**
   Preliminary results are provided immediately after the exam.

6. **Can I retake my exam if I fail?**
   Yes, you may retake the exam after 14 days.

7. **How can I get my certificate of completion?**
   The certificate of completion will be issued and available in your Cohesity Academy account within three weeks after passing. Once the certificates are available, you will need to log in to your MyCohesity account and access Cohesity Academy.

8. **When does Cohesity certification expire?**
   Cohesity certification expires two (2) years from the date you pass your exam.

9. **How do I contact the 3rd party exam company?**
   Equipment Requirements: Link here
   Real-Time Chat: Link here
   Ticket support (for non-urgent matters): Link here
   Phone: 1-855-772-8678

General and Fee FAQs

10. How do I find my transcript?

To find your transcript, click on the User Menu (hamburger icon in the top left corner) and scroll down to My Activities. Click on Courses or Learning Plans to see your training completions and status of courses.

11. How do I download my completion of course attendance certificate?

There are two options:

a. Go to My Courses and Learning Plans and click on the course title of a completed course.
Then, click on the "Download Your Certificate" button in the upper right corner.

b. Alternatively, click on the User Menu (hamburger icon in the top left corner) and scroll down to My Activities.
Click on Courses or Learning Plans to see your training completions.
You will see an award icon to the far right of the course title.
Click on the award icon to download a copy of your certificate.

12. How do I change my email address?

Please email support@cohesity.com and include first name, last name with the email addresses you are changing from and to.
This will create a ticket for a team member to help assist.

Badges & Social Media

At Cohesity, our dedication lies in equipping you with the necessary tools to accomplish your professional aspirations. Equally significant, we offer avenues for you to effectively convey your hard-earned certifications on social media.

Our badges incorporate analytics to show a progression path and advancing knowledge and skills of data management, providing insight to others into how our program and learner is performing, and through our collaboration with Credly, we present you digital versions of your credentials. These Cohesity digital badges serve as a means to showcase your expertise, abilities, and accomplishments to the global community.

How it works

1. Receive an email from Credly within one day of passing an exam
2. Claim your badge
3. Start sharing! Add your badge to LinkedIn, your email signature, blogs and more.

Purchasing Courses

1. Identify your training needs with your Cohesity sales representative.

2. Your representative will work with the Academy team to determine the most appropriate course.

3. Choose your preferred delivery method: self-paced eCourse or instructor-led live training.

4. Your Cohesity Sales Representative will create a quote for the training, and you can complete the transaction through your preferred business partner.

5. After the transaction is completed, you can start by creating a MyCohesity account and then navigate to Cohesity Academy. Once you've arrived at our learning management system, you can start by taking our free e-course, Cohesity Platform Foundations (pre-requisite to all Cohesity courses) and from there, you can explore which course(s) you'd like to take next.
