

# Cohesity FortKnox Deployment Service

## Data Isolation & Recovery as a Service Deployment

Cohesity FortKnox improves cyber resiliency with an immutable copy of data in a Cohesity-managed cloud vault via a virtual air gap. Organizations relying on FortKnox gain an additional layer of security against ransomware and other cybersecurity threats through physical separation, and network and operational isolation.

The goal of the Cohesity FortKnox Deployment Service is to deploy and configure Cohesity FortKnox Data Isolation & Recovery as a Service solution, providing guidance on the use of FortKnox according to Cohesity best practices including a successful data vault and recovery.

Cohesity Advanced Services will accelerate your time-to-value and help secure your environment.

## Service Delivery Overview

Cohesity Advanced Services will vault data for up-to-3 clusters as part of this service. Tasks include:

- Cohesity Data Cloud guided tour
- Validation of customer account entitlements
- Upgrade up-to-3 clusters to the required Cohesity version for FortKnox
- Create up-to-3 cloud vaults with required region and encryption options
- Configure cloud vault protection for up-to-3 Cohesity clusters (up-to-5 policies each)
- Setup cloud vault protection with appropriate policy, frequency, and retention
- Create quorum groups for recovery
- Initiate data vaulting
- Validate a successful vault and recovery

## Key Benefits

- Efficient and seamless integration by Cohesity Advanced Services Consultants
- Swift availability of FortKnox accelerating overall time-to-value
- Quickly enable your system for production use

## Description

PS-FortKnox is a service for Cohesity customers that includes initial integration and validation of Cohesity's FortKnox Data Isolation & Recovery as a Service.

The goal of this service is to help customers quickly configure their initial vault and provide guidance on the use of FortKnox according to Cohesity best practices.

This service will deploy based on the subscription purchased.

Cohesity Advanced Services help customers quickly deploy Cohesity FortKnox Data Isolation & Recovery as a Service solution.

To learn more, please contact your Cohesity sales representative.

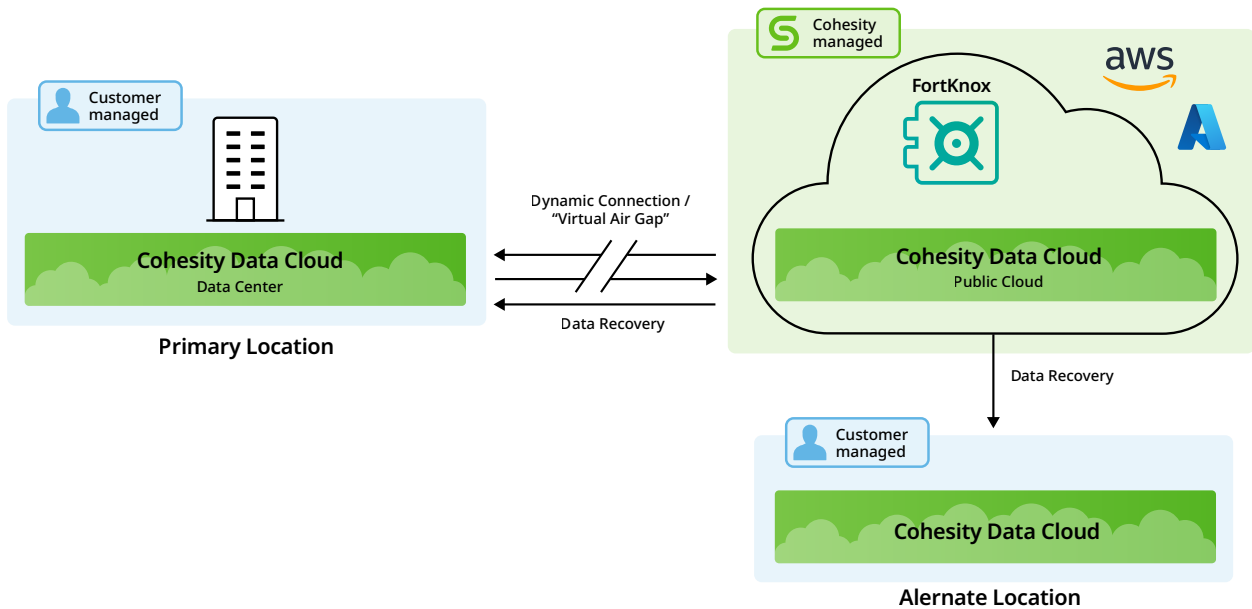

## Pre-Integration Planning

Cohesity will meet with you to discuss:

- Credential requirements
- Discover customer environment details
- Entitlements
- Desired deployment region
- Desired encryption options
- Quorum group requirements

## Limitations

- Minimum OS version 6.8.1
