Pioneers

COHESITY

A global competition where the WEF community recognizes only a few companies as Technology Pioneers every year.

INNOVATION

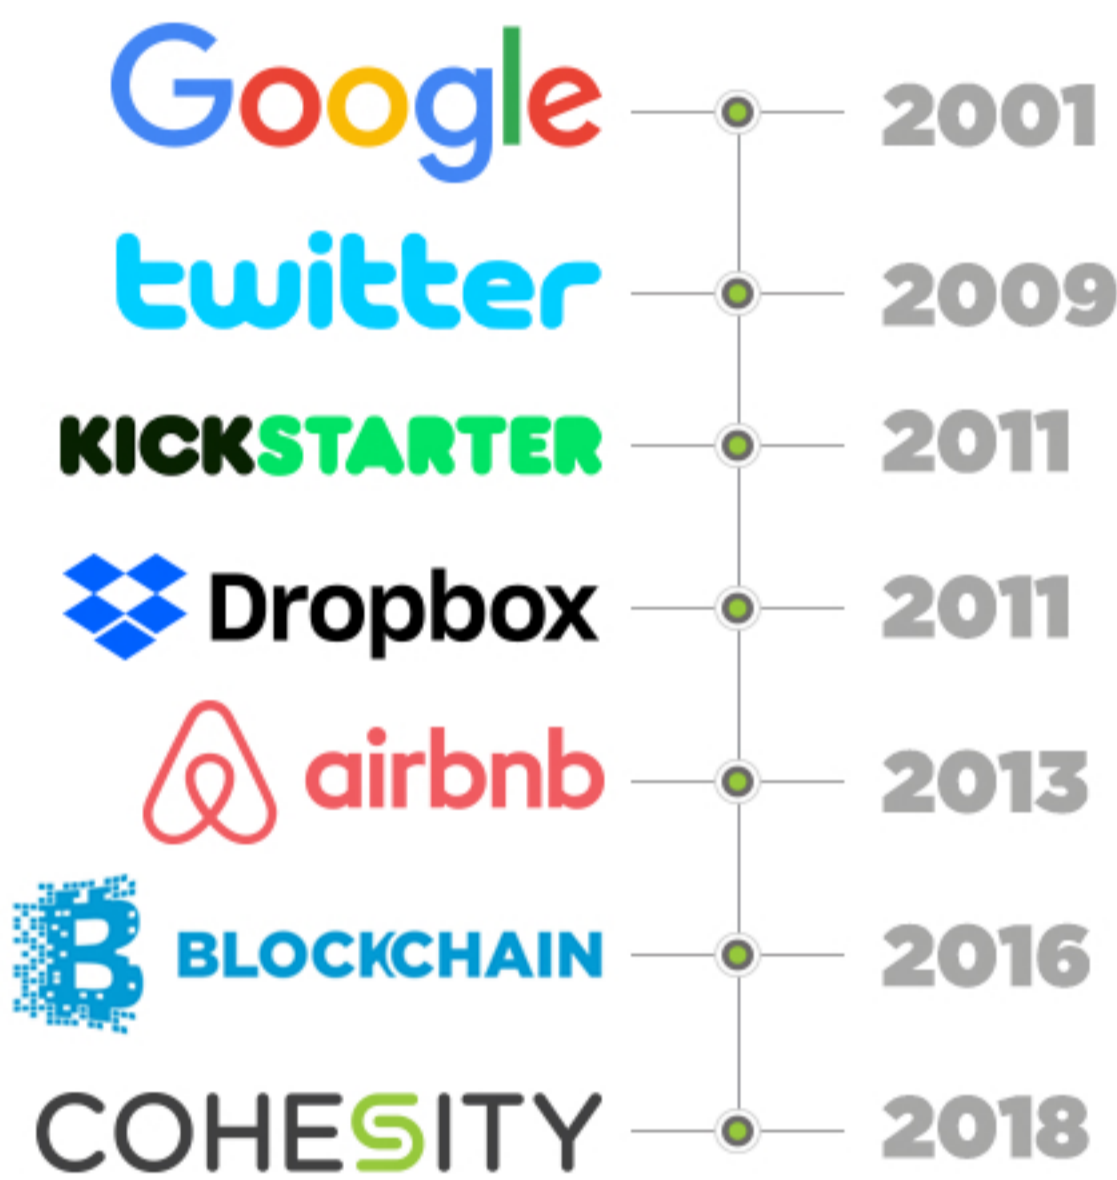

“...truly innovative in development of new technology...”

IMPACT

“...substantial long-term impact on business & society...”

LEADERSHIP

“...visionary leadership with ability to drive company to success...”

Our goal is to empower organizations to do more with their data - to use their talent and resources to serve their primary mission.

SCIENCE

“...discover the next important breakthrough...”

EDUCATION

“...improve education for the world's youth...”

PUBLIC SECTOR

“...improve education for the world's youth...”

COHESITY DataPlatform

Cohesity makes your data work for you by consolidating secondary storage silos onto a hyperconverged, web-scale data platform that spans both private and public clouds.

“Cohesity is committed to continuous innovation, consolidating and simplifying the management of data centers and clouds. That's how we are going to help change the world.”

- Mohit Aron, CEO
