

Simplify Your Data Management with Cisco-Cohesity Solutions

Key Benefits

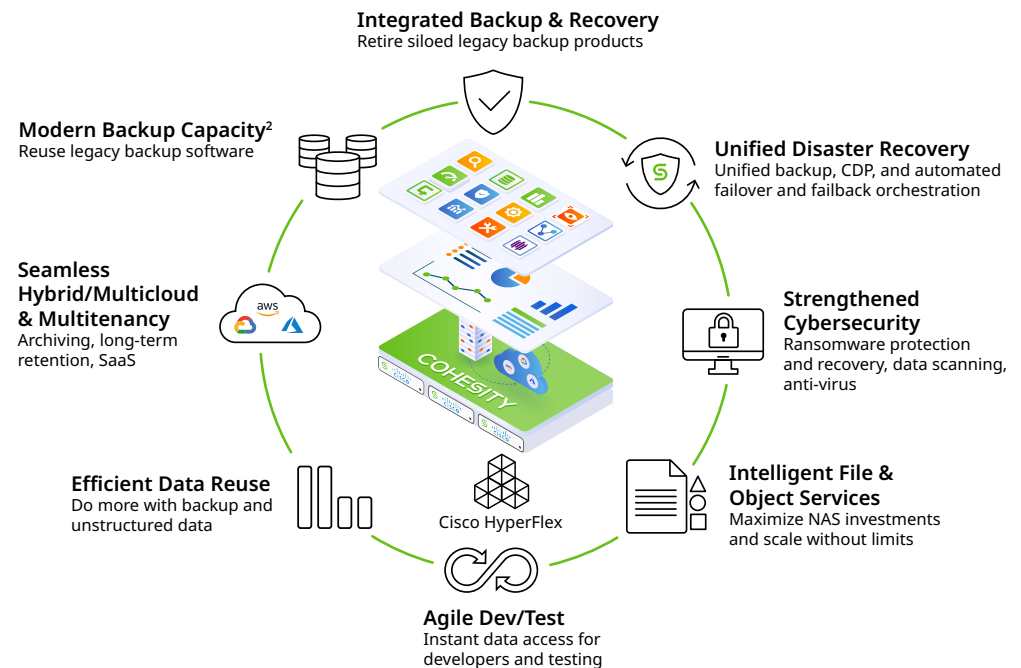

- Unified data management—core, cloud and edge
- Ransomware protection and recovery
- More productive data for the business
- Simple, reliable and predictable deployment
- 150% ROI in three years¹
- Exceptional experience from Cisco

As organizations navigate new digital-first normals in the face of rising data volumes and cyberattacks, the Cohesity-Cisco partnership empowers enterprises to eliminate **mass data fragmentation**, improve data security and reduce IT cost and complexity. Jointly developed Cohesity-Cisco solutions simplify data management—backup, archiving, disaster recovery, file and object services, dev/test and analytics—while allowing teams to unlock insights for business value from all of their data and avoid ransomware payments.

Cohesity software on Cisco UCS is an end-to-end data management platform delivering hyperscale simplicity, multicloud agility and global visibility. It consolidates data silos across on-premises, cloud and edge sites, and streamlines IT operations. The platform empowers teams to take control of all of their enterprise data, build data resilience and streamline compliance while becoming more productive toward achieving business outcomes.

Integrated Architecture Advances Data Management Initiatives

Cohesity and Cisco elevate data management strategies with an integrated platform for use cases that unify, protect and unlock value from enterprise data—across core, cloud and edge.

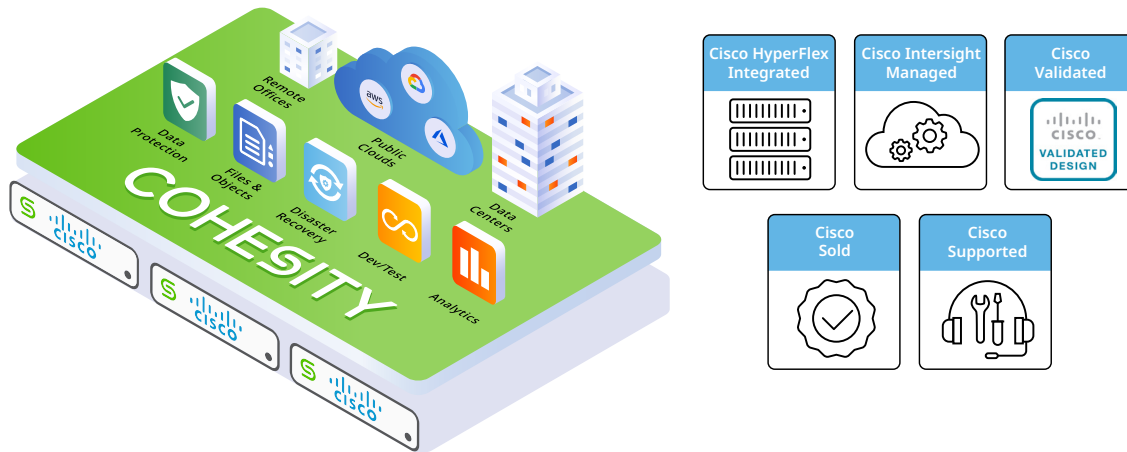

1. Forrester Consulting, "Forrester Total Economic Impact" of Cohesity on Cisco UCS, November 2020.
2. Simple on-ramp to joint Cohesity-Cisco solutions.

Certified Systems and Simple Engagement

Cohesity software running on certified all-flash and disk-based Cisco UCS configurations is integrated with Cisco HyperFlex and Cisco Intersight. Configuration and deployment is a snap thanks to available Cisco Validated Designs. For an optimal purchasing, deployment and support experience, the joint platform is available through the Cisco SolutionsPlus program and orderable directly from Cisco’s Global Price List. Support [options](#) from Cisco include Cisco Solution Support for primary point-of-contact support.

Integrated Cisco-Cohesity Solutions on Cisco UCS

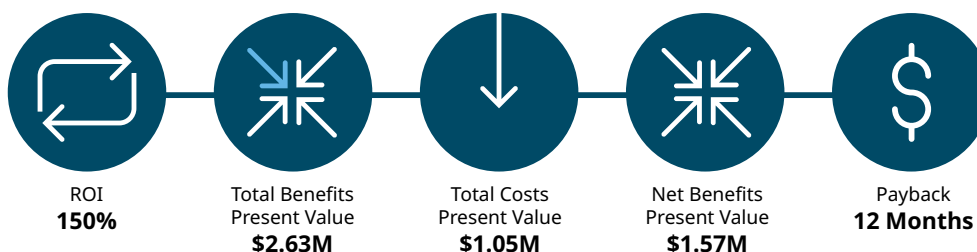

Organizations Achieve Quantitative and Qualitative Benefits

Easy to use, Cohesity-Cisco solutions deliver unlimited scale and enterprise-grade security for:

- **Lower TCO** – Converged platform with fast ingest and non-disruptive upgrades features true global deduplication and impressive capacity efficiency in a pay-as-you-grow model
- **Simplified, unified management** – Architecture enables control of all data operations through a single intuitive UI and speeds actionable search for data across sources and locations
- **Risk mitigation** – Platform reduces attack surfaces and boosts ransomware protection and recovery, including enabling instant mass restore at scale, to any point in time

The [Forrester Total Economic Impact of Cohesity on Cisco UCS](#) reveals customers are achieving both quantitative and qualitative benefits. In addition to an overall solution return on investment (ROI) of 150% in three years, the joint solution reduces the risk of a successful ransomware attack worth millions of dollars, improves disaster recovery processes and reduces compliance and legal risk.

“

“We are getting more work done than ever, which I attribute to both our talented team and the very strategic investments we’ve made in Cisco and Cohesity. There was already 100% consensus among our engineers that the Cohesity-Cisco solution worked reliably, was easy to use, and we were all more productive with it. Now, there’s also agreement that Cohesity is the best solution to combat ransomware attacks.”

John Gaede, Director of Information Services, Sky Lakes Medical Center
